

MEGAN BECKETT

"Scientifically creative; creatively scientific."

This aptly describes my philosophy and approach in my work and life.

With my unique combination of experiences and skills in analysis, research and design, I am applying myself in the world of data science and consulting. I thrive on being able to delve deep into the data whilst at the same time operating at a strategic, high level. Taking great pride in my work, I hold myself, colleagues and collaborators to high standards and strive to balance the quantitative and the qualitative in all that I do.

I thoroughly enjoy becoming engrossed in my painting. And I love to run, whether it is pushing myself hard at training for the next marathon goal or exploring new heights and trails on the mountain.

WORK EXPERIENCE

present
|
2018

Data Scientist

Exegetic Analytics

📍 Cape Town

- As a consultant data scientist for several parallel projects and clients, my role is to understand the key questions, eliciting what is needed most to help solve the problems and answer the pertinent data questions.
- This includes data analytics and research, data visualization, machine learning model design and implementation, product development for tools and dashboards.
- Also design and run Data Science training courses and workshops.

2018
|
2015

Learning Analytics Researcher

Siyavula Education

📍 Cape Town

- Lead the research and data analytics for the company, through various stages of growth, projects, products and software development.
- This included building an impact model for efficacy, monitoring and evaluation, providing data insights for strategic questions.

2015
|
2012

Instructional and Learning Designer

Siyavula Education

📍 Cape Town

- Initiated several projects to: coordinate collaborative content development, conceptualize interactive learning experiences for Maths and Science; conduct national training for Subject Advisors in pedagogical content knowledge and ICT skills; research and test drivers for motivation and engagement, translating this into effective product design for our target audience.

RESEARCH POSITIONS

2014
|
2013

Research Fellow

Institute of Education Technology

📍 Open University, UK

- A part-time fellowship to research several hypotheses relating to the impact of open education on teaching and learning in South Africa.
- I also spent a 2 month period at the OU learning different qualitative and quantitative research methodologies.

2014
|
2014

Consultant

Pathology Centre

📍 University of Cape Town

- A part-time project consulting on learning materials, student research projects and design of the museum for the facility.

2011
|
2010

Research Fellow

Institute for Plant Protection

📍 National Research Council, Italy

- During my Masters, I was awarded a fellowship to spend time as a researcher in two laboratories in Rome to conduct plant physiology experiments.

2009
|
2009

Assistant Researcher

Evo-Devo Laboratory

📍 University of Cape Town

- Undergraduate research position.

My background in research and the scientific method has influenced every part of career trajectory so far: from how I approach day-to-day tasks to being continuously exploratory and curious.

OTHER INVOLVEMENT

present
|
2017

Founder and Organiser

R-Ladies Cape Town

📍 Cape Town

- R-Ladies is a worldwide organization whose mission is to promote gender diversity in the R community.
- I co-founded the R-Ladies Cape Town⁷ chapter and organise monthly meetups, workshops and events.

present
|
2019

Organiser

satRday

📍 South Africa

- Annual, locally organised, accessible R conferences.

2018
|
2017

South African Public Lead

Creative Commons

📍 Global

- Creative Commons² is a nonprofit organization that helps overcome legal obstacles to the sharing of knowledge and creativity to address the world's pressing challenges.
- I spearheaded the activities in South Africa for 2 years as the public lead.

I am passionate about making STEM-related fields accessible to all, whether it is encouraging more girls to take part from from an early age, or supporting other womxn, in traditionally male-dominated fields, through sharing, teaching, mentoring and creating non-threatening environments to come together.

- 2016
|
